Hackathon of projecting pc games in Construct 3. We Had to make 2 games in 24 hours in group of 3-5 people.

Maciej Zemełka

Extramural student in AGH University of Krakow

Overview

Self learning front-end developer with some non-commercial projects. I am not limited to above-mentioned field, I am also willing to develop myself in other IT areas such as: testing, data bases, back-end development. I dealt with basics of them in the technical school.

Experience

Polcom - Trainee
December 2021 - January 2022 (2 months)
During the internship I was introduced to Laravel basics.

AMSO - Trainee
September 2020 - January 2021 (5 months)
During the internship we dealt with building PCs, changing components in laptops, installing newer OS

Education
